

## ABOUT US

Centre for Research on Advanced Cybersecurity Knowledge (CRACK) Research Lab is proposed to be established at UCTS in line with the strategy to strengthen UCTS's research activities as well as support Sarawak Digital Economic expansion under the umbrella of Sarawak Multimedia Authority (SMA).

## OUR OBJECTIVES

- To promote a holistic and advance research on Cybersecurity
- To undertake R&D activities related to Cybersecurity
- To provide advisory, consultancy and training services, policy formulation, strategic planning expertise and human capital development related to Cybersecurity
